Agenda

Frame title here (optional)

Frame subtitle here (also optional)

whatever you want to say

Agenda

itemize

The main contribution of our work is to propose a xxxx

- point one
  - **Point1.1**
  - something about point 1
  - **Point1.2**
  - something about point 2
  - **Point1.3**
  - something about point 3
- point two
- point three
- point four

enumerate

1. First,
2. Second,

columns

0.7 textwidth

0.3 textwidth

images

- **Point1**
- something about point 1
- **Point2**
- something about point 2
- **Point3**
- something about point 3

- **Point1**
- something about point 1
- **Point2**
- something about point 2
- **Point3**
- something about point 3

placeholder

- **Point1**
  - something about point 1
- **Point2**
  - something about point 2
- **Point3**
  - something about point 3

cite

- First you need to put all your reference into the bib file like reference.bib
- Then you can cite like this Author (year) -> Wikipedia (2019)

block

Block Title

Anything you want to emphasize

algorithm

Algorithm 1: Algorithm Title

Input:
Variables one, *one*
Variables two, *two*
Output:
Output, *out*

```
1  foreach condition do
2  |    loop
3  end
4  if condition then
5  |    process
6  end
7  if condition then
8  |    process
9  else
10 |    else process
11 end
```

- Detail for your algorithm

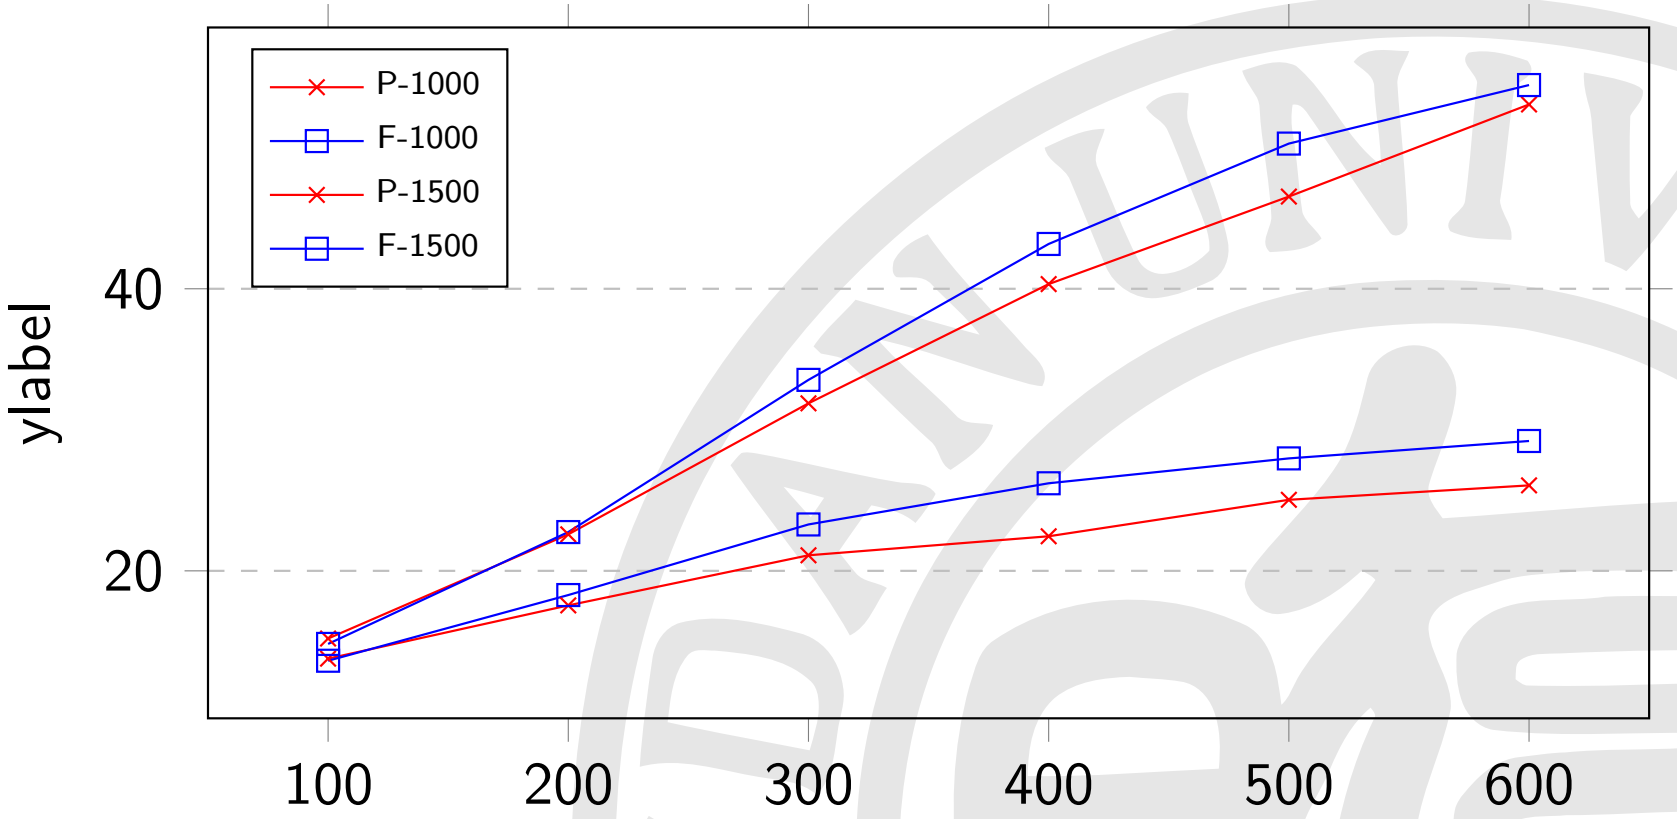
source code

Listing 1: C code example

```c
int main()
{
    printf("Hello World!");
    return 0;
}
```

you should pass the option fragile to the frame environment.

tikz plot inplace



place some explanation here
